## PERSONAL SUMMARY

- **Completed B.Tech with specialization in Information Technology.**
- Experience as a **Full-Stack** Developer.
- Dedicated team player and "quick learner" with ability to learn and implement things quickly in a fast paced environment.
- Very good verbal and written communication skills

## EDUCATIONAL SUMMARY

- Secured **75%** in **B.Tech** in 2014 with specialization in Information Technology from Bharathi Vidyapeeth College of Engineering, Pune, Maharashtra.
- Secured **95.6%** in **High School** in 2009 from Lucknow Public School, Lucknow, Uttar Pradesh of ICSE Board.
- Secured **89.4%** in **Inter** in 2007 from Lucknow Public School, Lucknow, Uttar Pradesh of ISC Board.

## EXPERIENCE SUMMARY

- **11 years of experience in multi-tier distributed applications, client/server development projects with complete implementation of Java Technology.**
- **4 years** of experience as **Tech Lead**.
- Experience in working as a **Full Stack Developer**.
- Experience of working in complete **Software development life cycle** following documentation, development, testing and maintenance.
- Good understanding of **Agile Methodology** and **Offshore Model**.
- Good Knowledge on **Banking Domain**.
- Good Knowledge of **Payment Domain**.
- Good in developing Web applications using core **Java, J2EE 1.7, J2EE 1.8, Java 8, React JS, Collections, Spring Framework, Spring Boot framework, Data structures, Apache Kafka, Microservices, Hibernate ,GitHub ,SVN, Git, Docker, REST API, Open Text ECM, JSP, Junit ,Test Driven Development, AWS, JavaScript, ES-6, JSX, CICD,Redux, JDBC,Angular 8, jQuery, HTML,Maven, Gradle, Kubernetes,Azure, GraphQL and CSS** with basic knowledge of **Powershell, Bat** and **Shell** scripts.

## TECHNICAL PROFILE

SKILL	EXPERIENCED
Languages	Core Java, Java 8, J2EE 1.7, J2EE 1.8., AWS
Web Technologies	React JS, HTML, ES-6, JavaScript, CSS , Maven, Gradle
JEE Technologies	JSP
Servers	Oracle WebLogic 10.3.6, Oracle WebLogic 10.3.3.
Scripting Language	Shell, Bat, Powershell

<b>Frameworks</b>	Struts Framework, Spring framework, Spring Boot Framework, Hibernate Framework.
-------------------	---

## PROJECT PROFILE

### PROJECT #1 Advanced Platform (Apr 2015 to Oct 2017)

<b>Client</b>	Bank of America, USA
<b>Duration</b>	2 Years, 6 months
<b>Team Size</b>	6
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>• Properly verified project requirements.</li> <li>• Documenting all the project specifications, codes and business.</li> <li>• Developing all the POJO classes required for the application.</li> <li>• Developed the code for encrypting and decrypting the files from the client in the MIME protocol.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>• Development and maintenance Project for Health Logic Corporation.</li> <li>• This application is used for displaying different types of filtered rates in the front end pages.</li> <li>• This application is built using Core java, Hibernate and Spring Framework, JSP, Open Text , HTML and CSS.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Framework, Hibernate Framework, JavaScript, JSP, WebLogic Server, Maven, Gradle

### PROJECT #2 Eclipse System Management Service (Oct 2017 to July 2019)

<b>Client</b>	Citi Bank, Malaysia
<b>Duration</b>	1 Year 9 months
<b>Team Size</b>	2
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>• Developed the Backend Functions for ESMS.</li> <li>• Provided the solutions for the QCs for the ESMS application.</li> <li>• Serviced various BAU's and OPPM's for the ESMS application</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>• Development and maintenance of project for Citi Bank.</li> <li>• This application is used for tracking the tickets and requests raised by Citi Bank customers regarding Cards and Bank Accounts.</li> <li>• This application is built using Core Java, Spring Framework, Spring Boot Framework, JSP, HTML and CSS.</li> <li>• The tools used are IBM RTC, Eclipse, Jenkins, Apache Tomcat Server.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Microservices, JavaScript, Apache Tomcat, HTML, Open text ECM, CSS, Linux

### PROJECT #3 IBM HCL Maximo Reporting Tool (Jul 2019 to Feb 2020)

<b>Client/Co-Op</b>	IBM
<b>Duration</b>	6 months
<b>Team Size</b>	2
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>• Developing the report creation tool in cooperation with IBM Maximo team.</li> <li>• Also, responsible for fixing the bugs in the Maximo application.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>• Development of reporting tool with IBM.</li> <li>• This application is used for accounting the workforce and the task assigned to them.</li> <li>• This application is built using React JS, JavaScript, ES-6, jQuery, HTML and CSS.</li> <li>• The tools used are GIT, VS Code, Yarn Storybook.</li> </ul>
<b>Skills Used</b>	React JS, JavaScript, ES-6, jQuery, HTML, CSS

#### PROJECT #4 British Airways Portal (Mar 2020 to Jun 2020)

<b>Client</b>	British Airways
<b>Duration</b>	3 months
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>• Developing the Backend APIs for the portal.</li> <li>• Working on various User Stories for the British Airways web application</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>• Development and maintenance of microservices and front end views of the portal.</li> <li>• This application is used for booking the travel tickets raised by British Airways customers.</li> <li>• This application is built using Core Java, Spring MVC Framework, Spring Boot Framework, JUnit, Test Driven Development, JSP, HTML and CSS.</li> <li>• The tools used are GIT, Eclipse, Jenkins, Apache Tomcat Server.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Microservices, JUnit, React-JS, ES-6, JavaScript, Apache Kafka, Apache Tomcat, HTML, CSS.

#### PROJECT #5 Open Payment Framework (Jun 2020 to Sep 2021)

<b>Client</b>	Mizuho Europe
<b>Duration</b>	1 year 3 months
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>• Enhancing the Java APIs for the Java Struts framework product.</li> <li>• Working on various User Stories for the Mizuho Bank web application</li> <li>• As a Tech Lead handled a team of 3 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>• Enhancements of the Struts based APIs and determination and analysis of the root cause of the issue being raised in the portal.</li> <li>• This application is uses OPF product which FIS global developed to make payments to various financial participants of the product.</li> <li>• This product is built using Core Java, Struts MVC Framework, Struts Framework, Spring Framework, JSP, HTML and CSS.</li> </ul>

	<ul style="list-style-type: none"> <li>The tools used are GIT, Eclipse, Jenkins, Apache Tomcat Server.</li> </ul>
<b>Skills Used</b>	Core Java, Struts Framework, Struts MVC, Spring Framework, Azure DevOps, Microservices, Azure Kubernetes, Azure Pipelines, Angular 8, Apache Kafka, Hibernate, JavaScript, Docker, HTML, GraphQL and CSS.

#### PROJECT #6 Nike-Teams (Nov 2021 to May 2022)

<b>Client</b>	Nike US
<b>Duration</b>	6 month
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Developing the Java based features for the teams platform.</li> <li>Working on various User Stories enhancement on back-end java apis, front end pages and scripting for environmental installations of the product.</li> <li>As a Tech Lead handled a team of 4 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Enhancements of the Nike teams platform and development of the new feature to the portal.</li> <li>This product is used to create the bulk customised uniforms for customers.</li> <li>This product is built using Core Java, Struts MVC Framework, Spring Boot Framework, Spring Framework, React-JS, JSP, HTML and CSS.</li> <li>The tools used are GIT, Eclipse, Jenkins, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Node JS, Express JS, Spring Framework, Apache Kafka, React JS, Microservices, Hibernate, JavaScript, Azure DevOps, Azure Kubernetes, Azure Pipelines, HTML, CSS.

#### PROJECT #7 Interswitch Payment Gateway (May 2022 to Oct 2022)

<b>Client</b>	Interswitch South Africa
<b>Duration</b>	6 month
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Developing the Java apis for the Quickteller portal.</li> <li>Mentoring team of 4 people ensuring their work gets completed smoothly and timely.</li> <li>Working on various User Stories enhancement on back-end java apis, front end pages and scripting for environmental installations of the product.</li> <li>As a Tech Lead handled a team of 4 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Enhancements of the Quickteller portal and development of the new feature to product.</li> <li>This product is used as a payment application for users to pay their bills and transfer amounts to their added beneficiaries.</li> <li>This product is built using Core Java, Spring MVC Framework, Spring Boot Framework, Spring Framework, Apache Kafka, React-</li> </ul>

	JS, JSP, HTML-5 and CSS-3. <ul style="list-style-type: none"> <li>The tools used are GIT, Eclipse, Jenkins, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Spring Framework, Apache Kafka, Python, AWS, Azure DevOps, Azure Kubernetes, Azure Pipelines, React JS, Microservices, Hibernate, JavaScript, HTML, CSS, Postgres SQL.

## PROJECT #8 Tupperware Portal (Oct 2022 to May 2023)

<b>Client</b>	Tupperware Australia
<b>Duration</b>	6 month
<b>Team Size</b>	3
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Developing the backend features and enhancements for the Tupperware portal.</li> <li>Mentoring team of 2 people ensuring their work gets completed smoothly and timely.</li> <li>Working on various User Stories enhancement on back-end java apis, front end pages.</li> <li>As a Tech Lead handled a team of 2 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Development of the Tupperware portal enhancing the new feature to the portal.</li> <li>This product is used as an ecommerce application for users to buy Tupperware products for the region of Australia.</li> <li>This product is built using Core Java, Spring MVC Framework, Spring Boot Framework, Struts Framework, Apache Kafka, React-JS, JSP, HTML-5 and CSS-3.</li> <li>The tools used are GIT, Eclipse, Jenkins, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Node JS, Express JS, Spring Boot Framework, Spring MVC, Spring Framework, Python, Azure Kubernetes, Azure Pipelines, Apache Kafka, React JS, React, Vite, Vitest, Playwright, Microservices, Azure DevOps, Hibernate, JavaScript, HTML, CSS.

## PROJECT #9 East West Bank (May 2023 to Oct 2023)

<b>Client</b>	East West Bank
<b>Duration</b>	6 month
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Monitoring a Production application and handling errors.</li> <li>Working on various User Stories enhancement on back-end java apis, front end pages.</li> <li>As a Tech Lead handled a team of 4 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Development of the portal, enhancing the new feature to the portal.</li> <li>This product is built using Core Java, Spring MVC Framework, Spring Boot Framework, Node Js, Apache Kafka, React-JS, JSP, HTML-5 and CSS-3.</li> </ul>

	<ul style="list-style-type: none"> <li>The tools used are Azure Devops, Eclipse, Jenkins, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Spring Framework,Blockchain, Apache Kafka, Node JS, Express JS, React JS, React, Jest, Azure Kubernetes, Blockchain, Azure Pipelines, Azure DevOps, Microservices, Postgres SQL, JavaScript, HTML, CSS.

### PROJECT # 10 Wayfair Portal (Nov 2023 to Nov 2024)

<b>Client</b>	Wayfair
<b>Duration</b>	8 months
<b>Team Size</b>	5
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Managing and leading the team.</li> <li>Developing and enhancing the Spring Boot apis for the Gap portal.</li> <li>Working on various User Stories enhancement on back-end java apis, front end pages.</li> <li>As a Tech Lead handled a team of 8 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Development and Management of the confidential portal enhancing the new feature to the portal.</li> <li>This product is built using Core Java, Spring MVC Framework, Spring Boot Framework, Node Js, Apache Kafka, React-JS, JSP, HTML-5 and CSS-3.</li> <li>The tools used are Azure Devops, Eclipse, Jenkins, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Azure Kubernetes, Azure Pipelines, Spring Framework, Python, Apache Kafka, React JS, Microservices, Hibernate, JavaScript, Postgres SQL, HTML, CSS.

### PROJECT # 11 DHL Delivery Portal (Nov 2024 to April 2025)

<b>Client</b>	DHL
<b>Duration</b>	5 months
<b>Team Size</b>	8
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Developing the backend api features and enhancements for the DHL portal.</li> <li>Groomed various User Stories enhancement on back-end java apis, front end pages.</li> <li>As a Tech Lead handled a team of 8 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>Development and Management of the delivery portal enhancing the new feature to the functional flow.</li> <li>This product is built using Core Java, Spring Boot Framework, Node Js, Apache Kafka, React-JS, JSP, HTML-5 and CSS-3.</li> <li>The tools used are Azure Devops, Swagger, IntelliJ, Plant UML, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Azure Kubernetes, Azure Pipelines, Spring Framework, Blockchain, Apache Kafka, Node JS, Express

	JS, React JS, Microservices, Hibernate, JavaScript, Postgres SQL, HTML, CSS.
--	--

## PROJECT # 12 LGI Portal (May 2025 to Present)

<b>Client</b>	LGI
<b>Duration</b>	6 months
<b>Team Size</b>	6
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"> <li>Enhancing and developing the Java based features and enhancements for the LGI portal.</li> <li>Creating front end pages and views using React JS</li> <li>Groomed various User Stories enhancement on back-end and front-end apis, front end pages.</li> <li>As a Tech Lead handled a team of 8 people.</li> </ul>
<b>Description</b>	<ul style="list-style-type: none"> <li>This product is built using Core Java, Spring Boot Framework, Python, Apache Kafka, React-JS, JSP, HTML-5 and CSS-3.</li> <li>The tools used are Azure Devops, Swagger, IntelliJ, Plant UML, Apache Tomcat Server and docker.</li> </ul>
<b>Skills Used</b>	Core Java, Spring Boot Framework, Spring MVC, Azure Kubernetes, Azure Pipelines, Spring Framework, Node JS, Express JS, Apache Kafka, React JS, Microservices, Hibernate ,AWS, JavaScript, Postgres SQL, HTML, CSS.
